

Design and Construction

PDL Toll has extensive experience in providing engineering and construction services for a wide range of standard and specialist structures. We are able to design, build and operate structures ranging from aircraft hangars to hospitals and camp accommodation to catering kitchens.

Our ability to combine construction expertise with extensive knowledge of the special requirements of a wide range of locations means we can create facilities that focus on meeting the needs of the operation rather than being limited by the challenges of the location.

PDL Toll has built:

- Accommodation and ablution facilities
- Helicopter landing sites and airfields
- Hospitals
- Kitchens and catering facilities
- Warehouses
- Portable water and wastewater facilities (including treatment plants)
- Power generation and reticulation units
