

Providing air logistics, aircraft chartering, ground handling, freight handling and passenger services

The Challenge The Australian Defence Force, Australian Federal Police and Department of Immigration and Citizenship require ongoing air logistics to support a variety of tasks that require flexibility, reliability and sensitivity. These operations throughout Australia and Asia-Pacific include a variety of aircraft chartering, ground handling, freight handling and passenger services.

The Solution PDL Toll is able to call on its experience to provide a range of integrated air logistics that combine the flexibility to adapt to changing needs with the reliability of being a trusted air logistics partner. PDL Toll also offers the convenience and accountability of a single point of contact to manage the entire operation.

The Results PDL Toll has provided air logistics in the Solomon Islands since 2003 and in Timor Leste since 2007. In this time they have proven their ability to meet a wide range of challenges. With operations ranging from regular personnel rotations to ad hoc immigration operations, PDL Toll offers the flexibility and reliability to ensure success.

The Facts	
Who	Australian Defence Force
What	Air Logistics
Where	Airfields in Australia, Solomon Islands and Timor Leste
When	2003 - Ongoing
How	Aircraft Chartering, Ground handling, freight handling and passenger services

Air logistics require:

- Experienced people on the ground and in the air providing on site coordination and liaison
- Detailed planning,
- Single point of contact and a single invoice; and
- Quality systems, equipment and people.
